

**"EPOCAP® (Evening Primrose Oil) balances estrogen hormone levels & protects against breast cancer and reduces menopausal symptoms."**

# EPOCAP®

Evening Primrose Oil 500 mg + Vitamin E 50 mg

One of the richest sources of GLA which helps maintain hormone balance and healthy skin.

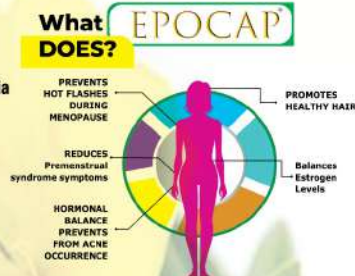

**Description :** Evening Primrose is a plant native to North America. Clinical studies have focused on its use in the treating problems associated with essential fatty acid (EFA) deficiency including premenstrual syndrome, atopic eczema, inflammation and diabetic peripheral neuropathy. 'EPOCAP®' (Evening Primrose) is relatively high in essential fatty acids (EFAs), particularly gamma-linolenic acid (GLA 17-10%). The omega-6 fatty acids present in evening primrose oil can help to regulate hormone levels. These fatty acids also play a role in cell structure, improving nerve function and protects from breast cancer.

**Composition :** Each Capsule contains Evening Primrose Oil Extract 500mg & other ingredients.
